

NEWS FROM THE FRONT

UNFAVORABLE FOR THE JAPS

They are Reported as Having Been Severely Defeated at Port Arthur And Checked at Mukden

St. Petersburg, November 28.—Moscow people arriving from the Far East tell a remarkable tale of the mysterious disappearance from the Trunk line of three hundred and fifty carloads of stores and warm clothing belonging to private consignees and officers.

Mukden, November 28.—The Vice-roy of the Chinese province of Honan is the first to carry out the instructions of the Dowager Empress of China.

New York, November 28.—Relative to the Japanese assault upon the defense of Port Arthur, a Tokio despatch to the Times says that according to unofficial advices from the besieged city, the Japanese escalated the parapets of the forts and transported mountain and field guns which they employed against the enemy. The attack was directed against Sungsheshan, Lung Shan, and the north fort of east Kokawa Shan. Commenting upon the Associated Press despatch that notices of specially trained swordsmen were at the front of the Japanese troops, who charged into the Russian forts, the Times says that the information confirms various vague reports that have come from Japan in recent months. These reports told of a corps of "Port Stormers" that had been formed in the Japanese army. It had been trained for years, and its special province in this war is to capture Port Arthur. Of the nature of the body of men, no correspondence has been permitted to speak of it, as it was evidently intended to surprise the Russians. Probably the troops belong to the Samurai class, and are descended of men whose skill in wielding the sword has never been surpassed.

St. Petersburg, November 28.—The war office has decided information from Chefoo that the Japanese assault on Port Arthur on Saturday was repulsed with enormous loss.

St. Petersburg, November 28.—General Kuropatkin, under yesterday's date reports that the Japanese offensive movement near the village of Tsinkhetelen was of an indecisive character up to November 26, at 4 p.m., and was checked by the Russian fire. Although the fighting had lasted three days, the Russian troops were in excellent spirits.

SHOT AT THE JUDGE

DISAPPOINTED DEFENDANT

Angered at Judge's Decision Attempts To take his life

San Francisco, November 28.—Rev. Selby of Australia, in a damage suit shot at circuit court judge Hebbard while the latter was on the bench to-day. The shot came within an inch of the judge's head and lodged in the back of his chair. Selby was at once removed to the city prison and charged with an attempt to commit murder.

Selby recently sued for divorce. He conducted his own defence, but was unsuccessful, a decree being granted against him. Judge Hebbard, who issued the decree, was trying a case to-day, when Selby arose from a seat in the court room and fired at the judge, who rushed from the bench and grappled with his assailant, preventing him from firing another.

THE SALMON OUTPUT

OF THE PACIFIC COAST

May fall into the hands of a Huge Monopoly

Portland, Ore., November 28.—It is believed that another combination to secure control of the salmon output of the Pacific coast is being formed. It is said that a representative of John Cudahy, the packer, had secured the properties of the North American Fisheries Company. These men are said to have been bidders at the sale of the Pacific American fisheries at Bellingham, Wash., Nov. 20, but were bid out by W. F. Peters, representing McGovern, President of the defunct Pacific Packing & Navigation Co. The sale of the Pacific Packing & Navigation Co. will occur Dec. 10. It is said that Cudahy only will prove a factor in the sale. Should he be successful in securing that property according to an arrangement which is said to exist, the successful bidders at the Pacific American fisheries sale will assign their interests to Cudahy's representatives thus giving him control of the largest fishing concerns on the Pacific coast.

THE WAR SITUATION

Tokio, November 27.—The Imperial Headquarters have just issued the following announcement: "The work for our attack having been nearly completed against Sungshu mountain Port Arthur and the forces lying to the eastward therefrom, a general assault was made on the afternoon of November 26, but owing to the enemy's stubborn resistance our object has not yet been accomplished, and the fighting still continues."

Tokio, November 27.—The Manchurian Headquarters, reporting today says: "From the night of November 25 until the morning of November 26, a body of the enemy's cavalry attacked our troops in the vicinity of Sintung-tung and Chag-tiox, but the attack was completely repulsed by us." The enemy's artillery, posted to the east of the Ta mountain vigorously shelled (the vicinity of Manchmentiz and Kuchiatu from two o'clock in the forenoon of November 26, but we suffered no damage."

London, November 28.—The Daily Telegraph's special Chefoo correspondent bears that many of Admiral Togo's vessels are being docked and repaired in preparation for eventualities. The morning special also gives a rumor that the Japanese assault on Port Arthur has been repulsed with heavy loss.

St. Petersburg, November 27.—General Kuropatkin telegraphs a description of a Japanese attack on November 24 against a Russian detachment near Yen-Senten on the front of the left flank. The fighting, General Kuropatkin says, was fierce almost amounting to a bayonet engagement, but the enemy were everywhere repulsed, and suffered severely. The attack was renewed the following morning, the Japanese having been reinforced but again were repulsed and at four o'clock in the afternoon a blizzard and fog greatly hindered artillery fire. The Japanese continued to advance under cover of the fog, but our forces held their positions and the firing subsequently slackened. The Russian losses were nine killed and fifty-seven wounded.

On November 26 the Japanese resumed the offensive and endeavored to envelop our left flank whilst advancing against our centre. I have received no later reports. General Kuropatkin also describes the bayonetting of twenty Japanese belonging to a patrol during a reconnoitering on the night of November 25.

London, November 28.—The progress of the Russian second Pacific squadron excites daily growing interest. A Japanese correspondent of the Morning Post discussing possible preparations to meet the squadron, suggests that Japan rely upon the older warships to maintain the blockade of Port Arthur. In fact, the special asserts that they already are so employed and thus enable the modern vessels to overhaul at Sasab, preparatory to meeting Admiral Rejestyevsky.

St. Petersburg, November 27.—One of the most commanding and far-seeing statesmen of the Empire, whose opinion is of the highest val-

ue, but who declined to permit of the use of his name, in conversation with the Associated Press, to-day expressed the opinion that nothing in the nature of a radical change in the existing order of things would result from the Zemstvo congress. This statesman, it can be stated, is a firm believer in the principle of autocracy as the best system of government for the realization of the dreams of the Slav race of what he believes to be a great destiny, the most populous nation and the vastest empire of the world. He has himself in fact favored a liberal policy and is now too practical minded not to appreciate the factors which threaten the present regime.

TUESDAY, NOVEMBER 29th

A CHAMPION OF AUTONOMY

From day to day the Winnipeg Telegram editorially declares its purpose in arguing for provincial autonomy for the Territories and incidentally shows how urgent it is that the people of the Territories should be actively represented in the Assembly in the immediate future on this subject. While the Telegram has been demanding autonomy for the Territories, its demand has generally been taken as an endorsement of the terms asked for by Premier Haultain in 1901 and 1905. But these terms took no account of the possibility of a part of the Territories being included in the province of Manitoba. And it is for this inclusion for which no doubt the Telegram and the local government of Manitoba is prepared to fight.

This attitude of the Telegram should awaken such of the people of the Territories as have accepted Premier Haultain's statement of claim as the last word on provincial autonomy, to the fact that when permanent provincial conditions are granted to, or imposed upon, the Territories, these conditions will necessarily be such as the provinces which make up the confederation, will agree to. That they will not merely be a matter of demand on the part of the Territories, and of a gift on the part of the Dominion; but will have to be such as the several provinces will accept as being in fair proportion to the terms which they themselves enjoy.

This being the case, it may very well happen that the terms which the other provinces will concede will not be such as the Territories can profitably accept. Confederation is a partnership, on fixed terms. The Territories are to be admitted to the partnership on such terms as the other partners will agree to on the one hand, and as the Territories can reasonably agree to on the other. We know that all the provinces are out for a re-adjustment of their provincial terms; and all are just as ready as Manitoba to take advantage of the organization of the Territories into a province to secure better terms for themselves. Any concession to the Territories will, no doubt, be met by a demand for a similar concession to the provinces, or the refusal of the concession to the Territories.

The Telegram's article is under the heading, "Should Our Boundaries be Extended?" and is as follows:

"Looking to the future and considering what is desirable as to the relative strength and importance of provinces, should Manitoba's boundaries be extended? This is a question every citizen of this province should begin to ask himself.

"Sir Wilfrid is under pledge to begin negotiations with the Territories at once, so as to be able to lay before Parliament at its next session some measure providing for the erection of the organized Territories into a province or provinces. Whatever boundaries are then set for the new provinces will in all probability be final. The size of the new province or provinces will then be fixed.

"If the people of Manitoba desire

that this, the pioneer province of the prairie West, which has borne the burdens of pioneer work, should retain the possibility of being the equal in population, wealth and importance of any other provinces in the prairie region, the time to settle the question will be when the new province or provinces are being created.

"It cannot be too often stated that Manitoba will seek nothing at the expense of the Territories. A cordial union of forces in securing the just settlement of the problem is the thing that the situation calls for. This is all the more to be desired because terms are even more important than boundaries. The leaders in the Territories have all along claimed that they would not be satisfied with the terms given to Manitoba. If Manitoba should object to any better terms being given to a new province, it would put a grave difficulty in the way of obtaining them. But Manitoba is most anxious to support a new province in securing the full measure of just rights and powers. Not only her friendliness but her own interests will dictate this course, for Manitoba needs better terms for herself. Active mutual support is what is required.

"In connection with the question of enlarging the area of Manitoba, it is interesting to note that the Eastern press is prepared to consider the matter. In a recent article the Toronto Globe, for example, after recalling the fact that the boundaries of Manitoba have already been once extended, says:

"It is very doubtful whether even the enlarged province is as extensive as it should be, and now is the time to come to some decision on this point once for all. . . . A glance at a modern map of the Dominion will show that there is much to be said in favor of enlarging Manitoba.

"La Presse, of Montreal, has used similar language. What the people of Manitoba must recognize is that these important questions are now up for settlement, and in the absence of an enlightened and active public opinion in this province, they may be settled to our permanent disadvantage."

CANADIAN CRUISER

CAPTURES U. S. FISHING CRAFTS

For Illegal Fishing and for Fishing in Canadian Waters

Eastport, Maine, November 28.—Ten American fishing crafts, including sailing vessels and two steamboats, have been seized by the Canadian fisheries protective cruiser, Curlew, and fined for illegal fishing in the Canadian waters off a tributary of the Passamaquoddy Bay, near St. George, N.B. The fishing crafts were seized near St. George last night. Three specific charges were preferred. That they had fished on Sunday; that they had illegally caught fish found in their possession; and that they had illegally fished in Canadian waters. For the first offence each boat was fined \$100, and for the last, \$200 in addition to this. All the fish were confiscated. It is understood that the fines will be paid, and the entire matter will be disposed of without involving any international questions. The aggregate value of the craft is about \$20,000. The seizure is the most extensive that has been made by a Canadian cruiser for many years.

GREAT SNOW-STORM

IN ENGLAND AND SCOTLAND

The Traffic of Old London at a stand still. Trains stuck in snow drifts

London, November 27.—Thursday was an especially terrible day for London. The heavy snow which had fallen during the night and the keen frost rendered the streets almost impassable for traffic. Horses were seen falling about the streets in the most distressing manner. One observer counted as many as nine horses down at one time in the comparatively small space of Trafalgar square. Ludgate Hill presented a curious spectacle. That street, usually the busiest of thoroughfares, was for some hours deserted. Not a bus or even a hansom driver ventured to navigate the steep slope till the lag-gard authorities sent laborers to scrape the street and scatter gravel over it.

Exciting stories come from the north of trains caught in snow drifts. The London and Edinburgh express driven at full speed failed to pierce the deep drift and stuck fast. The passengers reached Edinburgh nine hours late, an unusual experience in this country. But it was the fate of other trains in Durham and Northumberland to be held in drifts from Tuesday until Thursday before they could be dug out.

Haultain On The Political Situation

Winnipeg, Man., November 28.—Hon. F. W. G. Haultain here on his way home from the south says: "I have heard some talk about politics in the Territories being run on party lines. So far nothing definite has been arranged and I do not expect that anything will be determined until just prior to the next Territorial election. So far as autonomy for the Territories goes we have been given to understand that it will be settled during the next session of the federal Parliament, so it would make no difference even if Territorial politics were run on party lines as far as autonomy goes and even if they were and the Liberals returned, it would make no difference.

Purchase Grand Trunk Bonds

New York, November 28.—Speyer & Co., of this city, and Speyer Bros., of London, have purchased \$15,000,000 four per cent. bonds of the Grand Trunk Railway Company of Canada. The proceeds will be used to extend the Western of Pacific branch of the Grand Trunk system. It is understood that the Speyer banking house will finance the entire construction of this new extension.

Washing Proves

There's only one real test of unshrinkable underwear—the wash tub. Two or three hard rubbings will soon shorten the usual so-called "unshrinkable" underwear. That's why the directions for washing are so elaborate—why there are so many "ifs" and "don'ts."
Stanfield's Unshrinkable Underwear
is absolutely unshrinkable. The wash tub proves it. Your dealer guarantees this to you—and we back up that guarantee to him. We know it won't shrink because it can't shrink. Our special process takes out the shrink before the garments are cut. Even then, each one is tested by washing.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situate, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantiated.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior. N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SUPREME COURT

The hearing of the Leduc murder case was continued yesterday afternoon yesterday evening, and is still on to-day. The case is attracting a great deal of interest, the court room being filled to the doors. The three men charged with the murder of Alec. V. Reid in Leduc on the night of Halloween are Marianowski, Spannel and Klombies. The circumstances of the case are well known. A number of witnesses are being heard that were not called at the preliminary hearing, but they add very little to the story of the crime as brought out at the first hearing. The witnesses for the Crown in the order in which they were called, are: B. J. Saunders, D.L.S., who produced a plan of Leduc, showing where the blacksmith's shop stands, in which were Marianowski, Spannel and Klombies, and from which the fatal shot was fired; John S. Johnson, who was with the group of boys of which Reid was one just before the shooting; Constable McBrayne, R.N.W. M.P., who is stationed at Leduc, and who heard the shot fired, and afterwards made the arrest; Delbert Wilkinson, John W. Tipton, Freeman Dodge, Allan Sloan John Jordan, John Leask and Alex. Featherstone, who were with Reid at the time of the fatality; Dr. Geo. Sutherland, of Leduc, and Dr. Wilson, of Edmonton, who attended Reid after he was shot; Paul Theriault, James Blades, Gottlieb Hein, and Gottlieb Stellmacher, whose gun one of the accused had borrowed shortly previous to the shooting; Anna Witte, Alex. Bush and Frank Hardy, Rev. A. Hagar, of Edmonton, were sworn in as German interpreters. The jurymen are: H. N. Dodge, Henry Goodridge, D. C. Robertson, M. Brunelle, Wm. Jackson, and Arthur Davies. C. de W. McDonald is conducting the prosecution. N. D. Mills, of Strathcona, appeared on behalf of Marianowski; O. M. Biggar, of Edmonton, on behalf of Spannel; and J. C. F. Bown on behalf of Klombies.

C. P. R. ENTRANCE TO THE CITY

As announced in yesterday's Bulletin, the Canadian Pacific Railway Company are making an effort to obtain an early entrance into the city. It is stated that the C. P. R. Company is now conferring with the Canadian Northern Railway Company, with a view to taking over the operation of the Edmonton, Yukon & Pacific Railway, and thus obtain an entrance into the city. The C. P. R. are willing and rather prefer to have a union station in Edmonton, and an important announcement will likely be made in the near future.

REVILLON BROTHERS STORES.

VEGREVILLE

Vermillion country was held this week in the V. R. C. church and was very largely attended—visitors being present from Sickman Lake and Spring Creek districts.

Mr. Merton Cole, who made a trip to Edmonton recently for freight is now crippled and is under the doctor's care. It appears that he very unfortunately got kicked by one of his horses and as a result Mr. Cole is nursing a very sore leg.

Mr. A. B. Ritchie, our postmaster, is again in Strathcona and Edmonton on business. While Mr. Ritchie is absent Mr. M. Cole fills his position in the post office.

Threshing is now almost completed in this district and nearly all the threshing outfits are at present hibernating.

Nearly all the usual wild animals of this part of the Temperate Zone have gone into winter quarters except Chas. Spencer's bear "Sammy." Sammy is too busy to think of "denning up" yet. Last Sunday Sammy went to church and as the school house was full of more intelligent hearers, Sammy contented himself outside by reading concert notices on the school wall.

Mr. Turnbull of the Bible Society preached here last Sunday a. m., filling Mr. Argue's place. Mr. Argue is under the doctor's care and has been for some time past, but it is sincerely hoped that he may very shortly be able to resume his pastoral work.

The concert in the Vermillion school district as announced in these columns some time ago, is now an event of the past. It was a night which will not soon be forgotten by any who had the pleasure of being in attendance. It was truly the best

concert ever held in this Vermillion country, if not financially, it was for giving true pleasure and entertainment to all who were present.

It was a unique affair in every particular and reflects great credit on its managers and also on the children of the Vermillion school district. The programme consisted of readings, recitations, dialogues, minstrel performances, music and pantomimes. One of the chief features was an exhibition of the "Old District School" of 50 years ago. This occupied over one and one half hours and was especially interesting, the children showing great skill in the way they gave their answers which were generally extremely ridiculous so much so as to cause repeated peals of laughter and applause from the audience. The minstrel show in three parts was exceedingly comical and true to life. Mr. Geo. Abbot and Mr. W. Lauk performing their parts with true negro wit and good humor. Sambo's music on the banjo was very much enjoyed by all in the house. Another feature of the programme was a tableaux in three parts, and this was quite a novelty to all in this Valley as was also ceremony of the Tom Thumb wedding which was performed during the evening's proceedings. The violin music rendered by Mr. and Mrs. Clarence Abbot was very fine and owing to an accident to one of the violins, we would have been favored with a great deal more than what we did receive and enjoy. The last thing on the programme was entitled "How Mert Cole Lost His Chickens," a pantomime and as the whole performance was so excitingly and intensely interesting we refrain from trying to describe it. It was the funniest item in the whole list

and served well to send all on their way home rejoicing.

On December 16th there is a concert announced for Vegreville and the Vermillion Valley Minstrel troupe will appear here and we are sure will be heartily and enthusiastically received.

November 23, 1904.

Threshing is all done in this settlement now and the pleasant weather still continues. The grain did not yield as much as last year but is of a better quality.

Mr. Poulin has sold his threshing outfit to parties near Birch Lake.

Our thriving little village can boast of a first class butcher shop now.

Eugene Poulin is having his store house enlarged so that he can carry a larger stock of goods.

John Cameron is having his restaurant remodelled also.

Mr. and Mrs. Tetro's home has been made happy by the arrival of a bright baby girl.

Mrs. Pringle who has been suffering so long with consumption still lingers but is growing worse. There is little hope of her recovery now.

Our railroad graders have left us and gone into winter quarters but we hope to see them back in early spring.

Chicago Stock Show

Chicago, November 27.—With the arrival to-day of several carloads all the star exhibits for the live stock show have arrived and everything is in readiness for judging, which begins to-morrow. For the first time in its history, the exposition was open to the public on Sunday, at the Union stock yards. The building was crowded to its full capacity until midnight and the official attendance for to-day was 41,000. The Canadian exhibits in sheep and swine this year are more numerous and of higher class than in past years.

A SOCIAL EVENING

The social under the auspices of the Young Peoples' Society of the Presbyterian church was held in the basement of the church last evening, and was very largely attended. The social evening was planned to get the young people of the congregation together, and to welcome strangers to the church. This as its object, it was a great success. After various games, whose chief object was to get all

those present acquainted with one another, were finished, a short and appreciated musical programme was rendered. Rev. D. G. McQueen acted as chairman. Refreshments were served, bringing the evening to a close.
